

**FRANKLIN COUNTY
MUNICIPAL COURT JUDGE**

Questions for all judge races:

Question 1: *What is your judicial philosophy? (100 Word Limit)*

Question 2: *Do you think there is unfairness in the judicial process and if so what would you do to correct it? (100 Word Limit)*

FRANKLIN COUNTY MUNICIPAL COURT JUDGE 1/1/06

ANDREA C. PEEPLES, 5596 Winsor Woods Drive, Gahanna, Ohio 43230

Email: peeplescourt@hotmail.com

Website: www.peeplesforjudge.com

EDUCATION: B.A. Miami University 1991; J.D. Ohio State University College of Law 1994

Occupation: Assistant City Attorney /City of Columbus, Civil Division

Qualifications for Office: Experienced in defense and prosecution -having tried both juvenile and adult cases, misdemeanor and felony level crimes plus civil cases. I know how the different courts interact.

Question 1: Judges should interpret -not create the law and hold people accountable for their conduct especially as it relates to damage they have caused to others. However, in the sentencing phase judges should be reminded of their humanity. Defendants in municipal court are, generally, not hardened criminals but people who have made mistakes or find themselves in situations that may be beyond their complete control. People should be judged based on facts presented -not on their physical appearance or preconceived notions of the court. Municipal sentencing should reflect a willingness to solve ongoing conflict as opposed to punitive reactions.

Question 2: Yes. Unfairness is a function of an overburdened court system and a lack of knowledge by those affected. Ours is the busiest court in Ohio. The caseload often causes victims, witnesses and defendants to be treated as nothing more than their case numbers. Some people manipulate the system, utilizing services to which they are not entitled, while others for whom the services are designed remain unaware of their existence. Failure to address language /cultural differences slows the process for all involved. These problems could be addressed by public education on the judicial process and increased interpreting services throughout the court.

ISABELLA THOMAS, 695 Groton Place, Columbus, Ohio 43213

Email: isabellathomas@sbcglobal.net

Website: ElectIsabellaThomas.com

Education: BFA Ohio University; JD Capital University Law School

Occupation: Attorney

Qualifications for Office: Seventeen Years Experience in State, Federal and Municipal Court; Rated "Highly Recommended" by Columbus Bar Association

Question 1: My judicial philosophy is to be the change I wish to see. I want to see a judicial process that is fair, respected and ethical. I will work hard, be accessible to the public, and treat everyone with dignity and respect.

Question 2: There is unfairness in the judicial process. I will exercise personal courage and be fair.

FRANKLIN COUNTY MUNICIPAL COURT JUDGE 1/2/06

DWAYNE MAYNARD, 7903 Wiltshire Ct., Dublin, Ohio 43016

Email: JErvin@cbjlawyers.com **Website:** N/A

Education: B.A. in Economics and American History: Brown University -1980; JurisDoctor: The Ohio State University -1985

Occupation: Judge, Franklin County Municipal Court
Qualifications for Office: 12 plus years doing the job. Highly recommended by the CBA Judicial screening committee. Endorsed by the FOP Lodge #9. Dedicated, hardworking jurist who is firm but fair.

Question 1: My judicial philosophy respects the law, upholds the integrity of the system, and treats everyone with dignity. Generally, people look to the courts and the judiciary to be "standard bearers" of justice. This "concept of justice" is broader than imposing criminal sanctions or determining civil monetary awards. It also includes making sure that everyone who appears in court understands that there is a process and protocol which is followed to ensure that participants have the opportunity to be heard in an environment that is "level" for all. This approach maintains the public's trust and faith in the judicial system.

Question 2: Unfairness can exist in the judicial process but I believe it is incumbent upon each judge to try and safeguard against any actual or perceived unfairness. Over the years as a judge I have had several opportunities to see what I perceive to be unfairness in the process, and have heard from others what they felt was unfair about it. Where these instances have occurred, I have tried to talk through these concerns with the attorneys, litigants and observers who have been involved. I have found that communication is the most effective means to address this issue.

JAY G. PEREZ, 614 Belvidere Ave., Columbus, Ohio 43223

Email: Jperez@PerezForJudge.com

Website: www.PerezForJudge.com

Education: Undergraduate degree in Criminal Justice from Florida Atlantic University; Law Degree from Capital Law

Occupation: Attorney and Adjunct Professor
Qualifications for Office: Proven record of public service and inherent desire to serve the public. As a former police officer, I have a firm understanding of the oath of office and the oath of service.

Question 1: I believe the Courts should be accessible to all people and that every person has the right to bring forth a claim, in which they believe in. All parties in every matter should be treated with the utmost professionalism and due respect. I feel that good judicial temperate is imperative. Moreover, I believe that every matter should be fully adjudicated as timely and efficiently as possible.

Question 2: Unfortunately, I do believe there can be unfairness in the judicial process. "Unfairness" can be interpreted different ways. I believe justice delayed, is justice denied. A case that has taken an extraordinary amount of time to be adjudicated is unfair. Whether a party has competent representation or the funds for competent representation can play a factor. If elected, every person to come before me would be treated with due respect; judgment would be fair and balanced; and every matter would be fully adjudicated in a timely manner.

FRANKLIN COUNTY MUNICIPAL COURT JUDGE 1/3/06

MICHAEL T. BRANDT, 2964 Sawyer Ct., Grove City, Ohio 43123

Email: None given. **Website:** None given.

Education: B.A. Muskingum College, OSU College of Law J.D.

Occupation: Judge

Qualifications for Office: Twenty eight years in private practice of law. Mayor of Grove City. Nine years

judge on Municipal Court bench. Two years Administrative and Presiding Judge. Highly recommended by the CBA, endorsed by the FOP; Firefighters.

Question 1: My Judicial philosophy is to treat everyone that appears before me equally regardless of their station in life. I believe that it is necessary to temper ones decisions with compassion and understanding while applying the laws that are meant to be applied. It is the Judge's duty to understand the law and to apply it to the cases that come before him without regard of any personal beliefs. A good Judge must have common sense and the ability to listen and understand everything that is presented to them. Decisions must be made promptly with sufficient forethought and reasoning.

Question 2: Unfairness in the judicial process is like unfairness in society. Those with the financial resources have the ability to hire better, more experienced, attorneys and make use of more services. It is not our system that is unfair but, society as a whole. Our judicial system is the best in the world even with its flaws. It is imperative that as Judges we treat everyone who appears before us fairly without any bias or prejudice.

JEFFREY D. PORTER, 2528 Bloxom St., Grove City, Ohio 43123

Email: jeffporterforjudge@hotmail.com

Website: www.porterforjudge.com

Education: BA, Muskingum College, 1993 Cum Laude; JD, Capital University Law School, 1996

Occupation: Associate Attorney, Kegler, Brown, Hill & Ritter

Qualifications for Office: Former bailiff, Franklin County Municipal Court; Former Assistant City Attorney, 1997-2002

Question 1: My judicial philosophy is rooted in a simple concept and that is respect. As a judge it would be my duty to ensure that all plaintiffs, defendants, attorneys and court employees know that I respect the circumstances that bring them before the court. Respect includes: starting court on time, working throughout the day to complete the docket and listening to those who appear before the court.

Question 2: I think our justice system is fair, however, our judges always need to be diligent to ensure that the system remains fair. As a judge, your duty is to fairly and impartially administer the law. As a judge, you come into contact with the law on a daily basis. If elected, I plan on helping the court implement procedures to monitor new law and changes to the existing law in order to ensure that fairness continues in our justice system.

**FRANKLIN COUNTY MUNICIPAL COURT JUDGE
ENDING 1/1/08**

MICHAEL R. RANKIN, 2432 Wyncourtney, Powell, Ohio 43065

Email: mrankin@columbus.rr.com

Website: www.rankinforjudge.com

Education: The Ohio State Univ. -1975-BA; JD Univ. of Toledo -1979

Occupation: Nearly 26 years in the private practice of law plus serve as a City of Columbus Special Prosecutor.
Qualifications for Office: I am the only candidate in my race to receive the "Highly Recommended" rating by the Columbus Bar Assn. Judicial Screening comm. (over word limit)

Question 1: Practical and pragmatic problem solving skills are needed by experienced judges to the job right. To better handle the deluge of cases coming before Municipal Court here is what I propose to make the system work better: 1) Helping implement a separate drug/ alcohol court docket as was done in the Franklin County Common Pleas

The League of Women Voters of Metropolitan Columbus Educational Fund prepared this material. Candidates were informed that each response would be printed exactly as received and that each candidate would be responsible for the content of the replies. Each candidate was given a word limitation and replies that exceeded that limit were cut. Information and answers from the candidates have not been evaluated in any way. The League of Women Voters, in presenting this material, neither endorses nor rejects the views of any candidate quoted and does not and cannot assume responsibility for the contents of any candidate's reply or motive for making same.

Considering all that our country has been through in recent times, it is more important than ever that our citizens are informed about the candidates and issues before them. The mission of the League of Women Voters is to encourage the informed and active participation of citizens in Government and to influence public policy through education and advocacy.

The publication editor is Amy Pulles with assistance from Jennifer Armstrong, Kitty Burcsu, David Buzsee, Cathy Elkins, Mark Glazman, Janyce Katz, and Lucy Hadley. The LWVMC Educational Fund President is Kitty Burcsu.

The information in this bulletin can also be found on the League of Women Voters website at www.lwvcols.org.

Court by Judge Brunner. I support a repeat offender DWI/OVI (Operating a Vehicle Intoxicated) to help turn around and treat women repeat offenders -men have such a program. 2) In minor misdemeanor traffic cases and perhaps others, letting the defendant or their attorney enter a (over word limit)
Question 2: People should not be denied justice or suffer an unfair outcome because they cannot afford an attorney or have one that isn't conscientious, competent and thorough. Judges who are conscientious; respectful of people and their time; and, who have a range of legal and life experiences are needed. They are one of the few lines of defense to protect against any unequal application of the law.

AMY SALERNO, 295 W 4th Ave., Columbus, Ohio 43201
E-mail: None given
Website: www.retainjudgesalerno.com
stagger calendars for less wait time in Court, expand legal services to a broader base.
Education: BA-Youngstown State University, summa cum laude; JD-Ohio State University-1982
Occupation: Judge-Franklin County Municipal Court
Qualifications for Office: I am the Judge. Lawyer over 20 years- Varied law practice Former Administrative Law Judge for the State of Ohio. Former legislator; served 8 years in the Ohio House of Representatives.

Question 1: My role as the Judge is to apply the law, not make law. In my Courtroom, the law is applied equally and fairly. I believe in treating every person equally, fairly and with respect: Defendants, Prosecutors, Attorneys, Victims and Witnesses. Look at al aspects before sentencing. It is my duty as the Judge to facilitate the judicial process and not to pre-judge those who walk into the Courtroom. I am tough yet compassionate. This attitude has earned me the endorsement of the Fraternal Order of Police Lodge 9 and the Franklin County Consortium of Education Associations. Handled over 2000 cases.

Question 2: The American legal system is the best in the world and inherently a fair system. I work hard every day to insure that every person that walks into my Courtroom is treated fairly. I do not pre-judge my cases or advocate for either party. It is my duty as judge to insure that fairness exists in every case. That is no less than our citizens deserve and no less that what I give daily.

Changes needed: Improve alternative sentencing options; add more single subject Courts,
.....

FRANKLIN COUNTY MUNICIPAL COURT JUDGE ENDING 1/1/08 (UNCONTESTED RACE)

CARRIE E. GLAEDEN, 5142 Highland Meadows Dr., Hilliard, Ohio 43026
Candidate not surveyed due to uncontested race.

FRANKLIN COUNTY MUNICIPAL COURT CLERK

Questions for Municipal Court Clerk:
Question 1: *What will be your top one or two priorities as Clerk of Courts and why? (100 word limit)*
Question 2: *How would you improve your office's efficiency in this time of tight finances? (100 word limit)*

MIKE PIRIK, 4299 Randmore Rd., Columbus, Ohio 43220
Email: pirik@columbus.rr.com
Website: www.mikepirik.com
Education: A graduate of The Ohio State University, Mike Pirik is endorsed by the Fraternal Order of Police and the International Firefighter's Union because of his commitment to public safety and his

successful efforts to modernize the office and save tax dollars. He has dedicated over two decades to public service.
Occupation:
Qualifications for Office:

Question 1: I will continue to evolve our technology to make it easier for citizens and law enforcement officers to interact with the Clerk's office. We have accomplished a lot already - making it easy for citizens to access court records, pay their fines and check the status of cases online. We also save law enforcement officers time by allowing them to file information with the courts electronically so they can spend their time protecting our neighborhoods rather than bogged down with paperwork. I will continue to find new ways to integrate technology and make our office more efficient and effective.

Question 2: I will continue to streamline procedures and leverage technology to make our office more effective and efficient. In 2004 alone we were able to save taxpayers over 1 million dollars by handling an increased case load with a staff significantly smaller than our total authorized strength. Today we work smarter and faster than ever while providing great customer service, easily accessible public records, and efficient online processing of payments. I will continue to innovate in order to do more with less and to save taxpayer dollars through reduced staffing augmented by technology.

LORI M. TYACK, 947 N Clubview Blvd., Columbus, Ohio 43235
Email: gcschultz@gmail.com
Website: tyackforclerk.com
Education: Associates Degree, Legal Assistant, Columbus State
Occupation: Small Business Owner, Office Manager, Paralegal
Qualifications for Office: Over 20 years experience in Courts throughout Central Ohio; Bailiff, Common Pleas Court; Paralegal; Small Business Owner; Coordinator of services for children for Worthington UMC (Children's Council, Sunday School Teachers, Vacation Bible School); Volunteer in Worthington Schools

Question 1: My top priorities when I become clerk are to improve customer service and to improve communication. The Clerk's Office is used by almost everyone in Franklin County. We must ensure that everyone has access to court records, assistance with the troubles they encounter, and the help of knowledgeable and personable staff. The Clerk must communicate with lawyers, law enforcement officers and the general public to ensure that their needs are being met. Hiring staff who can speak more than one language will help both customer service and communication as the population of Franklin County becomes more and more diverse.

Question 2: Improved collaboration and communication with other county offices, the public, law enforcement and the legal community can save time and money. Storage space for records can be shared. Information technology can be improved. Encouraging present staff to learn a second language and placing a priority on the ability to communicate in multiple languages for new staff will improve communication with an increasingly diverse public. Court arraignments can be conducted by the use of video conferencing without requiring the Sheriff's Office to transport dozens of prisoners from two separate jails each day. This system is already in use in other counties.

MUNICIPALITIES WITHIN FRANKLIN COUNTY

CITY OF BEXLEY AUDITOR

CITY OF COLUMBUS AUDITOR

Questions for City Auditor:
Question 1: *What will be your top one or two priorities as City Auditor and why? (100 word limit)*
Question 2: *How would you improve your office's efficiency in this time of tight finances? (100 word limit)*

HUGH J. DORRIAN, 999 Birchmont Rd., Columbus, Ohio 43220
Email: HJDORRIAN@COLUMBUS.GOV
Website: http://auditor.columbus.gov
Education: B.Sc. in Bus. Admin. -Major in Accounting; Certified Public Accountant
Occupation: City Auditor -Columbus, Ohio
Qualifications for Office: Experience: Columbus City Auditor, 36 years; Columbus City Treasurer, 3 1/2 years; Private Industry Public Accounting firm, 6 years; Ethics in Government Award from Ohio Government Finance Officers Association (1996)

Question 1: Our primary goal as City Auditor; the City's Chief Accountant as described in the City's Charter, continues to be maintaining financial stability of the City. Only in this way, working with all City officials and the many community organizations, can we maintain a level of quality services to our citizens.

Question 2: Efficiencies are continued and improved by maintaining quality staff members such as we presently have. We also utilize presently and intend to continue to use state of the art technology. Tight finances are not uncommon in government. Every taxpayer's dollar must constantly be respected.

LYNN SAUTTER, 6990 Spruce Pine Dr., Columbus, Ohio 43235
Email: sautterforauditor@yahoo.com
Website: www.lynnsautter.com
Education:
Occupation: I am a securities trader with an institutional investment management firm managing over \$1 billion dollars in assets for government agencies, charitable endowments, and corporate retirement plans. I hold my NASD Series 7 General Securities Registered Representative license, and have worked as a financial professional in Columbus for several years.
Qualifications for Office:

Question 1: The top priority of the office is to safeguard public funds. Recently, the Columbus Metropolitan Area Community Action Organization (CMAAO) filed for bankruptcy. When it became clear that the agency was struggling, the Mayor requested the Auditor's office review their finances. However, no action was taken until the state intervened, hiring the Mid-Iowa Community Action agency to investigate. They immediately discovered financial problems dating back to 2002. It took the state of Ohio and out-of-state organizations to force changes. This problem should have been resolved locally if the current administration had taken a stronger stance in protecting the taxpayers' money.

Question 1: If I win in November, I intend to work hard to represent the citizens of Columbus and ensure that their tax dollars are being used in the most efficient way possible. Over the last year, we have seen a rash of city services and programs that are funded but not implemented. From the \$88,000 spent on an employee Internet monitoring system that was never utilized until the media took notice, to locks purchased for fire hydrants when not enough wrenches to open them were initially supplied, there are areas of waste in the budget that can be trimmed.

CITY OF COLUMBUS ATTORNEY (UNCONTESTED RACE)

RICHARD C. PFEIFFER, JR., 238 E Royal Forest Blvd., Columbus, Ohio 43214
Candidate not surveyed due to uncontested race.

CITY OF COLUMBUS MEMBER OF COUNCIL

Three to be elected

Questions for City Council:

Question 1: *What will be your top one or two priorities as a member of Columbus City Council and why? (100 word limit)*

Question 2: *What would you do to improve the City's financial stability? (100 word limit)*

KEVIN L. BOYCE, 3184 Sophie St., Columbus, Ohio 43219
Email: Boyce1@columbus.rr.com
Website: www.kevinboyce.com

Education: M.S. in Public Administration, Central Michigan University; B.A. in Political Science, University of Toledo.

Occupation: Executive Director/ Senior Program Officer Knowledge Works Foundation.

Qualifications for Office: I have served five years on Columbus City Council and currently Chair the Finance and Administration Committees.

Question 1: I will continue to focus on protecting the City's financial health and strengthening neighborhoods. As Finance and Administration Committee Chair, I aim to maintain the City's AAA bond status while ensuring we make smart investments. I've made hard choices in recent budgets, cutting cell phones, travel and non-essentials as well as promoting improvements that lower costs for services. Similarly, safe and healthy neighborhoods demand that we constantly seek new ways to activate safety personnel and citizens, while exploring different crime and safety strategies. From increased fire prevention efforts to safer playgrounds, we can achieve progress by working together.

Question 2: Financial stability depends upon employment, the economy, and efficient management of resources. I will continue to advocate for high-wage jobs by teaming with homegrown entrepreneurs and growing companies. I will continue to support and advocate for a housing market that contributes to our economy and attracts new and diverse residents every year. I will monitor closely the city's asset management plan in order to allow us to make better decisions about the use of resources so that excess or wasteful spending can be redirected to critical city services for our seniors, young people and families.

ALISIA CLARK, 3280 Darrell Ct, Reynoldsburg, Ohio 43068
Email: alisiac Clark05@yahoo.com
Website: www.Aliasiac Clark.com
Education: Franklin University BA/MBA Organizational Leadership

Occupation: Currently employed with the Secretary of States office as a Marketing Liaison. Previously employed with the Secretary of States Office, as a Regional Representative overseeing 11 local government offices.

Qualifications for Office: Public Servant, over 16 years of government experience, experienced in how local government works. Community leader (*over word limit*)

Question 1: The top two priorities facing Columbus City council is one the Crime rate and Education. Our crime rate has soared, our recent education scores showed no real improvement. With strong leadership we can make the changes necessary to reduce our crime rate, and provide quality education for our children. City hall can no longer ignore our public school system, we must partner with CPS to ensure our children are receiving a quality education. With strong leadership we can decrease our growing crime rate, and improve our quality of life. I will fight for our children, and for safe streets.

Question 2: City hall has cut most of the city service budgets. This translates into fewer services for your tax dollars. We propose a creative new way of

developing funds to support vital city services such as receiving payments for advertising in and on city vehicles and spaces. By simply marketing advertising opportunities on refuse trucks alone we can raise up to \$150,000 a year. We must make City Revenue Producing Divisions more effective. Provide the electricity division the resources to solicit new business. Currently the electricity division has no marketing plan or resources to expand the revenue producing arm of the (*over word limit*).

PHIL HARMON, 5312 Longriffle Rd., Westerville, Ohio 43081
Email: phil@philharmon.com
WEBSITE: www.philharmon.com

Education: Cornell Univ, Bach. Science, 1976; Capital Law School, Juris Doctor, 1980

Occupation: Attorney
Qualifications for Office: Proven track record working for community. Opposed plan to federalize Columbus Police. Led battle to protect Big Darby Watershed. Helped defeat car-rental tax. Fought for jobs during Smoking Ban debate. Working to protect Second Amendment rights. Endorsed by (*over word limit*)

Question 1: 1. Enact District Representation as the method for electing Columbus City Council members. The current at-large system eliminates vigorous debate on the important issues facing our city. Under District Representation, each area of the City will elect its own member of Council and that member will look out for the people who elected her or him.
 2. Enact Project Exile, a program to crack down on gang violence. That program reduced gun violence in Richmond, Virginia by 40% after it was enacted.
 3. Create Jobs!

Question 2: Consolidate all local police and fire departments within Franklin County into a single organization to be known as the Greater Columbus Security Force. Central Ohio is not prepared to handle a New Orleans kind of disaster. We must be prepared to act on our own and not wait for the State or Federal government to save us. The regional Security Force would have a well-established chain of command under a strong and experienced leader. The single largest expenditure of tax dollars is for security. We can do better. We also need to consolidate other overlapping municipal services throughout Greater Columbus (*over word limit*)

MARY JO HUDSON, 955 Delaware Ave., Columbus, Ohio 43201
Email: mjudson@columbus.gov
Website: www.hudsonforcouncil.com
Education: Juris Doctor, University of Cincinnati, College of Law, 1988 (with honors). B.A., Public Administration, Miami University, 1985.
Occupation: Bailey Cavaliere LLC, member /attorney. Columbus City Council, Jobs and Economic Development Committee Chair.
Qualifications for Office: Sixteen-year Columbus resident; one year member of Columbus City Council and Chair, Jobs and Economic Development Committee; Attorney representing (*over word limit*)

Question 1: Creating and retaining good paying jobs remains a priority. Since the creation of the Jobs and Economic Development Committee, I have overseen legislation to bring \$150-million in private investments to Columbus, create 1500 new jobs, and retain 1600 jobs. In the 2005 budget, I pushed for strategic investments in economic development. The first project, a South Side Investment Vision Plan, is a community-driven initiative to help a hard-hit area of our city. I also initiated plans for a Technology and Research Corridor near OSU, launched a micro-enterprise loan for struggling businesses, and developed a small business internet resource tool.

Question 2: Sound fiscal management, combined

with workforce development efforts, are key to securing safety and economic viability. Columbus was the only major city to protect its Triple-A credit rating -the highest available -which means we save millions in interest payments to invest millions more in neighborhoods. At the same time, Columbus residents pay the lowest combined tax rate and fees of any major city in the Midwest. Recognizing that two-thirds of the City's income is generated from jobs, if we create more jobs, we can afford more police officers, more firefighters, more health centers, and more financial stability.

MARYELLEN O'SHAUGHNESSY, 405 E Town St., Columbus, Ohio 43215
Email: meoshaug@inet.net
Website: www.votemaryellen.com

Education: Wattersen High School; The Ohio State University (BA Journalism; coursework for the MA completed)

Occupation: Licensed Funeral Director, O'Shaughnessy Funeral Home; Senior Development Director, The Buckeye Ranch
Qualifications for Office: eight years of proven leadership as an elected member of City Council; experience in small business.

Question 1: As chair of the Public Service and Transportation committee and the Development committee, my priorities have been and will be to work toward safe, walkable neighborhoods; responsible, sustainable growth and development (inward with a passion and outward with a plan); a vibrant and livable core City; a balanced transportation system that accommodates pedestrians, bicycles and transit effectively and efficiently; and the maintenance of excellent and effective delivery of basic City services even in tight budget times. I know this is more than one or two but it's a big job serving on Columbus City Council

Question 2: Since the City's income is dependent primarily on the income of those who work here, we need to continue to work hard to create good-paying jobs with benefits. As a member of Council I have help create and maintain hundreds of such jobs in Columbus. We are working with Ohio State to create a tech corridor to attract such employers. We also need to continue to create an environment in our City that is attractive to the "creative class," who can help drive a lot of entrepreneurial investment especially to our core City.

EDDIE PAULINE, 980 King Ave. Bldg 9 Apt 6, Columbus, Ohio 43212
Email: eddie@eddiepauline.com
Website: www.eddiepauline.com
Education: B.S. Geology, B.A. Political Science from The Ohio State University
Occupation: Director of Sales Operations for Scout Media
Qualifications for Office: F.O.P. Endorsed, Supported by Columbus Realtors, President of UNA-USA Columbus, Board Member of East Columbus Development Company, Twice Elected Student Body President at OSU

Question 1: Hire at least 100 more police officers. A safe city is a successful city and for Columbus to have a per-capita crime rate higher than New York City's is an embarrassment and a deterrent to new families and businesses that consider making Columbus home. At least 100 more police officers will be my goal. Sponsor a ballot initiative to create a hybrid city council consisting of 4 at-large members and 5 ward members. Our council structure hasn't changed since 1914 yet our city has changed dramatically. This will create a greater representation and a council focused on results.

Question 2: Stimulate the neighborhood business community and revise our land use policies. We must do more to streamline permit processes and

ensure small businesses have the support to grow. Create a Young Professional Development Board of young business talent that will aim to retain and attract small businesses to Columbus. We ignore Columbus' bank of young talent and are losing them to other cities. Offering a tax credit for staying in Columbus after graduation is a cost effective method to attract and retain young people to our great city.

CANAL WINCHESTER LOCAL SCHOOL DISTRICT
 Board of Education - Three to be elected

CHUCK MILLER, 1297 Pheasant Run Dr., Canal Winchester, Ohio 43110
STAN SMITH, 10685 Busey Rd., Canal Winchester, Ohio 43110
DEBRA M. WAITES, 3585 Cedar Mill Rd., Canal Winchester, Ohio 43110

COLUMBUS CITY SCHOOL DISTRICT
 Board of Education - Three to be elected

Questions for Columbus School Board Candidates:
Question 1: *If you had the power to change one thing about the Columbus Public Schools, what would that be and why? (100 word limit)*
Question 2: *What would you do to improve the school's financial stability? (100 word limit)*

BARBARA L. BRYSON, 5165 C Stone Ridge Dr. South, Columbus, Ohio 43213
Email: bbryson@sbcglobal.net
Website: http://www.geocities.com/bbryson2005/bbryson2005.html
Education: Graduated from John Adams, Cleveland, OH; PT student pursuing B.A. in Business Administration
Occupation: Administrative Support Coordinator, Nationwide
Qualifications for Office: My children attended CPS and now I have a granddaughter who attends. Strong time management skills; excellent administrative, organizational skills; detailed oriented, proficiency to learn quickly and perform new responsibilities, work effectively with *(over word limit)*

Question 1: I would increase the graduation rate in the Columbus Public Schools To accomplish this task, I would ensure low teacher-to-student ratios; take best practices from the alternative schools and implement them throughout the District; while building stronger partnerships with the community to develop additional internship opportunities. To supplement these changes, a public school foundation would be created to solicit for grants and scholarships while managing vital community partnerships.

Question 2: I would advocate for an independent audit to be performed with the results (good or bad) made available to the general public. A quarterly budget reporting system should be put in place to monitor progress with responsible fiscal personnel charged to uphold these established policies. This will provide the transparency that the public is requesting. A critical review of all accounting procedures and practices are needed to re-gain the trust and credibility of the community. We must assure the people that we serve that they can trust us with their two most valuable assets: Their children and their money.

BILL BUCKEL, 1641 Hess Blvd., Columbus, Ohio 43212
Email: None **Website:** www.billbuckel.com
Education: B.S. Mechanical Engineering, University of Colorado; M.L.S. Library Science, Kent State University
Occupation: Retired reference librarian from Battelle Memorial Institute
Qualifications for Office: Spent thirteen years as an active Columbus School parent, including building -level PTAs. I learned firsthand the need for more public accountability /cooperation in Columbus Schools at each building.

Question 1: Current School Board policy expects parents, who are dissatisfied with their local school, to transfer their child -that is, to be "good-school shoppers", not "good-school builders". The average annual cost of busing a student to a distant school is about \$800. I believe the School Board should adopt

a policy that encourages parents and resident to be "good-school builders" by inviting them to establish an academic quality assurance council at their own neighborhood school. These local councils would be elected public bodies. More details are posted on my web site at: www.billbuckel.com/policy.htm.

Question 2: It is not realistic to expect a local district level school board in Ohio to achieve "financial stability". Financial instability is caused by variations in state funding, unforeseen events, fluctuations in the regional economy, and uncertain taxpayer support for local tax levies. The best way to improve financial stability in Columbus is to: (a) do a good job of educating our students and thereby gain local public support for operating levies and (b) use realistic forecasting when asking for new tax levies.

BETTY M. DRUMMOND, 5742 Jardin Place, Columbus, Ohio 43213
Email: BDRUMM4573@aol.com
Website: None given.
Education: Degrees: B.S., Elementary Education; M.A., Early and Middle Childhood Education. Certification: elementary teacher and principal, reading teacher and supervisor.
Occupation: Retired educator
Qualifications for Office: As a former teacher and parent, I know how children learn, what is realistic to expect from teachers, and what parents expect from schools.

Question 1: I want to make improvemetns so all our students have the foundatoin needed to find success, graduate and be prepared for their next steps in life. These are my plans: Identify and implement innovative programs that will allow students to learn in the setting that is the best fit for them. Promote good health and nutrition so our students are ready to learn. Prepare our children for kindergarten -67% come to kindergarten unprepared to start the first level of our reading series. I'll work to build partnerships to make sure parents are adequately preparing children for school.

Question 2: I believe that by expanding the Audit and Accountability committee to include four experienced and knowledgeable financial professionals from outside the District, the community will see solid financial numbers going forward. A similar approach has been successful with the panel overseeing our school building project. We must remain vigilant with the taxpayer's money and keep spending in check.

ANDREW GINTHER, 12 Hanford St., Columbus, Ohio 43206
Email: aginther@trimphcomm.com
Website: www.andrewginther.com
Education: B.A. Earlham College
Occupation: Community Relations Coordinator Triumph Communications, Inc.
Qualifications for Office: I am an experienced policymaker with a track record of improving academic achievement and demanding accountability from our school district. The reform agenda that I have pursued has made the district more efficient, effective, responsive, and inclusive.

Question 1: I would increase our high school graduation rate at a faster pace. I introduced and passed a truancy intervention and dropout prevention resolution in my first year on the Board which has guided our work in increasing our graduation rate by nearly 10%. The district must find more effective ways to transition middle school students to high school because all of the research shows that students that fall behind by the end of their freshman year are much more likely to drop out than graduate from high school.

Question 2: I authored and sponsored the district's expanded accountability plan that increases the

membership of the Audit and Accountability Committee and authorizes the Committee to issue fiscal reports every ninety days to ensure improved financial reporting to the community. These reports will help the district keep its pledge to hold spending increases to three percent and make the levy last at least four years. School districts in Ohio are at the mercy of a school funding system that has been ruled unconstitutional four times by the Supreme Court because the system is overly reliant on property taxes.

W CARLTON WEDDINGTON, 75 N Ohio Ave., Columbus, Ohio 43203
Email: vote4weddington@hotmail.com
Website: www.vote4weddington.com
Education: Born in Columbus, I have a B.A. from Hampton University. I am a Franklin County employee, a certified long term substitute teacher, former aide to Columbus City Council and US Congress. I serve on the "I know I Can" board and I am endorsed by the Democratic Party and AFSCME.
Occupation: None given.
Qualifications for Office: None given.

Question 1: Columbus Public Schools should be more focused in facilitating a partnership between the parents and the community as full partners in character education. Parents are a child's first and most important moral teachers. CPS must do everything it can to promote and support parents in this role. CPS must increase direct communication with parents and raise their expectations of the school, child and themselves. We must give a clear and concise messgae about the school's core virtues and character plans to all parents by holding meetings for the entire community to attend. It builds trust and a sense of pride.

Question 2: I would immediately implement the full recommendations of the Audit and Accountability Committee concernng accounting practices and procedures relating to the budget. We need to be able to account for every dollar spent down to the classroom level. The middle school audit report by Phi Delta Kappa spoke of inconsistency, lack of continuity and poor follow through within the district. It is evident as well in our financial responsibilities as we continue to disregard expert recommendation, creating a budget on poor forecasting particularly relating to students we are losing annually to charter schools, which adds up to approximately \$41 million.

MICHAEL D. WILES, 203 E Welch Ave., Columbus, Ohio 43207
Email: wilesmid@hotmail.com
Website: www.wiles.cc
Education: Attended Columbus South HS (GED 1976)
Occupation: Warehouse Manager
Qualifications for Office: I have been an "AT RISK" Student, Parent, Grandparent & education activist. I know & appreciate the struggles of trying to learn, work, & raise a family in Columbus because I live it, and would provide that viewpoint missing from the BOE.

Question 1: Access to the process! The true experts on the needs of our schools & our children are the parents (Past, Present, & Future) that make up the neighborhoods surrounding our school buildings. But these experts are rarely called upon in any meaningful way. Yes, the BOE encourages us to volunteer, serve on committees, attend school functions, and vote for Levies & Bonds, as long as you don't question, disagree, offer plans or ask for accountability, or results. I believe full inclusion of the community would go along way towards fixing many of the problems facing the Columbus Public Schools.

Question 2: Redirect Spening & Insure Accountability! CPS has over \$1 billion running thru its check book every year to undereducate just over 62,000 children, that's almost \$20,000 each. That's plenty of money to properly educate Students,

it's just spent badly and not budgeted correctly. The current board likes to treat the symptoms of the prolems instead of fixing the problems. i.e. Safety issues & Health Care Cost; hidden, Charter Schools (& soon vouchers); under estamated, 6.9mill levy; when they needed 10, condition of school buildings; deferred, etc., etc., etc.

STATEWIDE BALLOT ISSUES

ISSUE 1: JOBS FOR OHIO (THIRD FRONTIER) PROPOSED CONSTITUTIONAL AMENDMENT

(Proposed by Resolution of the General Assembly of Ohio)

To adopt Section 2p of Article VIII of the Constitution of the State of Ohio.

This proposed amendment would:

1. Be for the purpose of creating and preserving jobs and stimulating economic growth in all areas of Ohio by improving local government public infrastructure, including roads and bridges, expanding Ohio's research and development capabilities to promote product innovation and commercialization, and preparing sites and facilities for economic development in Ohio.

2. Declare that local government public infrastructure, and financial assistance for research and development and development of sites and facilities in Ohio for and in support of industry, commerce and distribution (all referred to together as "development purposes") are public purposes.

3. Authorize the state to issue bonds to finance, or assist in financing, public infrastructure capital improvements for local governments. Authorize the state to issue bonds to provide financial assistance for research and development in support of Ohio industry, commerce, and business, and authorize state and local governments and state supported and state-assisted institutions of higher education to issue bonds and provide other financial assistance to support research and development purposes as provided for by law. Authorize the state to issue bonds to pay costs, or assist others in the payment of costs, of projects for the purpose of developing sites and facilities in Ohio.

4. Limit the total principal amount of general obligation bonds issued under this amendment for financing development purposes as follows: no more than \$1.35 billion for local government public infrastructure with no more than \$120 million in each of the first five fiscal years and no more than \$150 million in each of the next five fiscal years; no more than \$500 million for research and development purposes with no more than \$100 million in each of the first three fiscal years and no more than \$50 million in any other fiscal year; and no more than \$150 million for developing sites and facilities with no more than \$30 million in each of the first three fiscal years and no more than \$15 million in any other fiscal year; provided that any principal amount that in any prior fiscal year could have been but was not issued may also subsequently be issued.

5. Require bonds for infrastructure capital improvements and developing sites and facilities mature no later than thirty (30) years after their date of issuance and for research and development purposes mature no later than twenty (20) years after their date of issuance, and that any refunding obligations mature no later than the permitted maturity date for the obligations being refunded; and provide that bonds for research and development purposes and developing sites and facilities will not be subject to the limits on state debt service under Section 17 of Article VIII or the prohibitions against lending aid and credit in Sections 4 and 6 of Article VIII of the Ohio Constitution.

6. Authorize the General Assembly to pass laws providing for its implementation, including laws providing procedures for issuing obligations, ensuring the accountability of all state funding provided for development purposes, restricting or limiting the taking by eminent domain of private property for disposition to private sector entities for research and development and the development of sites and facilities, and for the implementation of the research and development purposes to benefit people and businesses otherwise qualified for the

receipt of funding in all areas of Ohio, including economically disadvantaged business and individuals in all areas of the state, including by the use Ohio products, materials, services and labor to the extent practicable.

LEAGUE EXPLANATION: Placed on the ballot by the General Assembly, this proposal pairs an infrastructure bond program with economic development funding to stimulate economic growth and create jobs. It would declare that local government public infrastructure, financial support for research and development and development of sites and facilities in Ohio that support industry and commerce are "public purposes," so that government grants and loans can be made to private businesses, research organizations, and educational institutions for development purposes.

The amendment would authorize the state to issue general obligation bonds of up to \$1.35 billion for local government capital improvements to infrastructure (this portion is a renewal of a 1995 amendment); \$500 million to provide financial assistance through state and local government and state-supported and state-assisted institutions of higher education for research and development (similar Third Frontier funding is currently provided through the General Assembly); and \$150 million for state use to develop job-ready sites and facilities in Ohio. It authorizes the legislature to pass laws providing for implementation, including issuing and paying for the bonds.

This amendment would overrule the prohibition against the state government or any local government investing in private companies.

LEAGUE PROS:

1. This amendment would provide a much-needed influx of funding for the infrastructure needs of local governments, including repair of roads and bridges and water and wastewater facilities.

2. Bond money will aid in transforming Ohio's economy from its emphasis on heavy manufacturing to a more high-tech, knowledge-based economy.

3. Creating job-ready sites will speed job creation at a time when Ohio is struggling with unemployment.

4. Accountability is to be ensured in the enabling legislation, including limits on the use of eminent domain.

LEAGUE CONS:

1. This amendment would override current Ohio constitutional protections against state and local governments giving away public tax dollars to benefit private business interests. The private market, not the government, should finance research and development.

2. In repaying the bonds, legislators lose flexibility in allocating funds for other state services that may be more urgent.

3. Proponents of the amendment anticipate that research and development funds will leverage private sector and federal investment dollars, but there is no requirement in the amendment itself that funding be matched or supplemented.

ISSUE 2: PROPOSED CONSTITUTIONAL AMENDMENT

(Proposed by Initiative Petition)

To adopt Section 6 of Article XVII of the Constitution of the State of Ohio.

In order to expand to all electors the choice to vote by absentee ballot in all elections, this amendment would:

- Provide that any person qualified to vote in an election is entitled during the thirty-five days prior to the election to receive and to cast a ballot by mail or

in person at the county board of elections or additional location designated by the board. No reason for casting such a ballot shall be required. When a ballot is mailed to an elector, the county board of elections shall also provide a pre-addressed, postage pre-paid envelope for returning the ballot to that county board of elections.

- An elector to whom a ballot has been mailed, but which has not been received by the issuing county board of elections prior to the election, may cast a provisional ballot on election day. If the elector's first ballot is received by the tenth day following the election, the provisional ballot shall not be counted. A ballot which is received by the issuing board by mail no later than the tenth day following the election shall be treated as timely cast if it contains a postmark not later than the day of the election. A majority yes vote is necessary for passage.

LEAGUE EXPLANATION: The proposal would provide for early voting, without stating a reason, by mail or in person during the 35 days prior to an election.

LEAGUE PROS:

1. No-excuse early voting would encourage greater voter participation in elections by making voting more convenient.

2. Election officials can serve voters more easily than at crowded polls.

3. If there is a problem with the ballot or with voting equipment, there is time to fix it.

LEAGUE CONS:

1. Voters who cast their ballots up to 35 days prior to an election may miss the revelation of significant information that would cause them to change their vote.

2. Mail-in ballots may be more susceptible to fraud or coercion.

3. In-person early voting may be more expensive to administer, particularly if additional sites, staff and/or equipment are needed.

4. Early voting may introduce new dynamics to the campaign process that distract from the discussion of issues and the merits of the candidates.

ISSUE 3: LIMITING POLITICAL CONTRIBUTIONS AND REFORMING CAMPAIGN FINANCE

PROPOSED CONSTITUTIONAL AMENDMENT

(Proposed by Initiative Petition)

To adopt Section 5 of Article XVII of the Constitution of the State of Ohio.

In order to establish revised limits on political contributions, establish prohibitions regarding political contributions and provide for revised public disclosure requirements of campaign contributions and expenditures, this amendment would:

- Establish the following limits on political contributions:

Annual limitation on contributions by individuals: \$25,000 in total to all candidates for state executive offices and member of the General Assembly, political parties, PACs, multi-candidate PACs, and small donor PACs.

Contributions from individuals: \$50 to a small donor PAC; \$500 to a political action committee; \$1,000 to a candidate for member of the general assembly, a multi-candidate PAC, or a county or local political party; \$2,000 to a candidate for statewide executive office; and \$5,000 to a national or state political party.

Contributions from political action committees (PACs): \$500 to a candidate for member of the General Assembly or another PAC or multi-candidate

PAC and \$1,000 to a candidate for statewide executive office or a political party.

Contributions from multi-candidate PACs: \$500 to a PAC; \$1,000 to a candidate for member of the general assembly or another multi-candidate PAC; \$2,000 to a candidate for statewide executive office or a county or local political party; and \$10,000 to a national or state political party.

Contributions from small donor PACs: \$500 to a PAC; \$1,000 to a multi-candidate PAC; \$5,000 to a local or county political party; \$10,000 to a candidate for member of the general assembly; \$20,000 to a candidate for statewide executive office; and \$25,000 to a national or state political party.

Contributions from candidates' committees: \$500 to a candidate for member of the general assembly; a PAC or multi-candidate PAC and \$1,000 to a candidate for statewide executive office or a political party.

Contributions from affiliated national, state, county, and local political parties combined: \$25,000 to a candidate for member of the general assembly and \$100,000 to a candidate for statewide executive office.

- Provide that limits on contributions to candidates are per election; all other limits are per year; limits on contributions to political parties apply to all donations regardless of purpose; and limits on contributions to and by PACs apply as a single limit on affiliated committees.

- Define a "small donor action committee" as a PAC that receives contributions only from individuals of no more than \$50 per year per contributor, except that a non-profit membership organization may contribute funds from regular membership dues of its members to small donor action committees that it establishes or are established by a non-profit membership organization with which it is a member or affiliated, provided that no more than \$50 per year per member may be contributed.

- Define a "multi-candidate political committee" as a PAC that has been in existence for at least six months, received contributions from at least 50 individuals in the 24 months preceding qualifying, and made contributions to at least five candidates with no more than half being to one candidate.

- Define "independent expenditure" as an expenditure made with a purpose of influencing a candidate election, that is not made in coordination, cooperation, or consultation with any candidate at the election; and also as any communication to the public during the period 60 days prior to a primary or general election that contains a reference to a person who is a candidate at the election for state executive office or member of the General Assembly, regardless of the purpose of the communication.

- Establish restrictions on contributions, including by political parties and corporations and other business entities and from individuals under age 18 and prohibit earmarked contributions.

- Prohibit statewide and general assembly candidates and office holders from:

- Soliciting contributions to more than one political action committee, small donor action committee or multi-candidate political committee in a calendar year.
- Soliciting contributions to a committee supporting or opposing a state ballot issue.
- Appearing in advertising in connection with a state ballot issue, unless the candidate or the candidate's campaign committee pays the entire cost.

- Require public disclosure of political contributions and expenditures, including independent expenditures. Require candidates for state executive offices or member of the general assembly to electronically file with a single office within one business day of receipt of a contribution in the amount of \$1,000 or more received during the period 30 days before an election.

- Provide for no limits on a candidate's capacity to spend his or her own money in connection with his

or her own campaign, and have the effect of repealing existing law allowing an opponent to be exempt from contribution limits.

- Permit labor unions, and other nonprofit unincorporated membership organizations, to contribute funds from regular membership dues paid by the organization's individual members to a small donor action committee. The small donor action committee is not required to report the names of individuals who contribute in this fashion.

- Prohibit committees registered with and regulated by the Federal Election Commission from making contributions or independent expenditures in connection with any nonfederal candidate election in this state or making a contribution to a political party in this state for nonfederal elections.

- Prohibit out-of-state political parties and candidate campaign committees from making contributions or expenditures in connection with any candidate election or making a contribution to a political party in the state.

- Prohibit candidates from receiving contributions from political action committees, small donor action committees or multi-candidate political committees if the candidate exercises any decision making authority with respect to the committee or has solicited contributions to the committee in the current or prior four years

League Explanation: This proposal would establish limits on contributions to candidates, political action committees, and political parties. Further, it would establish a number of additional prohibitions relating to contributions. It would also provide for public disclosure of campaign contributions and expenditures.

LEAGUE PROS:

1. The proposal would strike down recently enacted \$10,000 contribution limits and reduce limits to \$2,000.
2. The proposal would limit contributions from individuals under the age of 18, unless the contribution comes from the individual's personal funds (thereby eliminating contributions from parents on behalf of their children without the children's participation).
3. The proposal reinstates Ohio's long-standing prohibition of political contributions from corporations.

LEAGUE CONS:

1. This proposal would place dollar limits for campaign contributions in the Ohio Constitution that may become unrealistic in the face of rising campaign costs and will be difficult to change. This level of detail does not belong in the Constitution.
2. Overly broad provisions of the amendment may impinge on individuals' right to freedom of speech while participating in the political process, and are vulnerable to constitutional challenge.
3. The current limits, which increased substantially in the past year, allow contributors to give to the candidate of their choice without resorting to evasive tactics to circumvent low limits.

ISSUE 4: INDEPENDENT REDISTRICTING PROCESS

PROPOSED CONSTITUTIONAL AMENDMENT

(Proposed by Initiative Petition)
 To amend Article XI of the Constitution of the State of Ohio.
 To provide for the creation of a state redistricting commission with responsibility for creating legislative districts, this amendment would:

- Replace the current provisions of Article XI of the Ohio Constitution, including the two existing separate processes for creating legislative districts and for electing representatives to Congress and representa-

tives and senators to the Ohio General Assembly with a new state commission.

- Provide that the new commission would be composed of five members, two of whom would be chosen by sitting judges, and the remaining members appointed by the first two or chosen by lot. The terms of the members of the commission shall be until the later of the adoption of the redistricting plans required to be adopted under the Article or the conclusion of all litigation in any court regarding such plans or the commission's responsibilities, actions or operations.

- Provide that a primary criterion to be utilized by the new commission in creating legislative districts would be to ensure that the districts are competitive, according to a mathematical formula contained in the Amendment.

- Provide that the commission must adopt a qualifying plan with the highest "competitiveness number," as defined in the proposed Amendment. The Amendment defines the "competitiveness number" of a plan by a mathematical formula, that is the product of the number of balanced districts multiplied by two, plus the total number of other remaining competitive districts, minus the total number of unbalanced uncompetitive districts multiplied by two. The competitiveness number for a general assembly plan is the sum of the competitiveness number for the house of representatives districts and the competitiveness number for the senate districts. Provide that the "measure of competition" of a legislative district be based on a calculation using the two average partisan indexes for the district, which are calculated on the basis of the percentage of votes received by each of the two partisan candidates who received the two highest vote totals statewide in each of the three closest general elections during the four previous even-numbered years prior to adopting a redistricting plan, keeping the index for one of the partisan affiliations always as the minuend and the index for the other partisan affiliation always as the subtrahend from district to district throughout a redistricting plan.

- Provide that the commission may consider whether to alter a plan to preserve communities of interest based on geography, economics, or race, so long as the reconfiguration does not result in a competitiveness number that is more than two points lower for a congressional plan and four points lower for a general assembly plan.

- Provide that the commission may design and adopt a redistricting plan if the plan meets the same criteria and has a competitive number equal to or greater than each submitted qualifying plan.

- Provide a method for the commission to assign state districts for senators whose terms do not expire at the end of the first even-numbered year following adoption of the plan.

- Provide that legislative district boundaries shall change in 2007 and, thereafter, every year ending in one following a federal decennial census.

- Provide that the supreme court of Ohio has exclusive original jurisdiction involving redistricting plans adopted under the amendment, but limits such jurisdiction to ordering the commission to perform duties required under the amendment and prohibit the court from revising or adopting a plan.

- Provide for open meetings, public hearings, and certain public record requirements regarding the activities of the commission.

- Provide that the general assembly must appropriate sufficient funds for the commission to perform its duties. The commission may expend funds as it, in its discretion, deems necessary

LEAGUE EXPLANATION: This proposal is intended to address a lack of bipartisan input in redistricting / reapportionment for both Congressional and legislative districts. It would replace the current

Apportionment Board, which consists of partisan elected officials, by providing for creation of an independent redistricting commission. It specifies that competitive districts (between the two major political parties) should be created whenever possible. The new process would allow any person or organization to submit a redistricting plan for consideration by the commission. This proposal also would authorize elections based on the new redistricting plan in the year following its adoption. Thereafter, redistricting would occur only following the federal decennial census.

LEAGUE PROS:

1. This new process is designed to remove partisan politics from the redistricting process by allowing any person or organization to submit a redistricting plan for adoption by an independent redistricting commission.
2. The creation of competitive districts would restore a meaningful voice to voters by allowing them a choice of candidates, and would end the recent phenomenon of elections being decided by the primary instead of the general election.
3. The need to be elected from competitive districts should moderate the positions of candidates who, without competition, tend to represent the extremes of their parties' positions.

LEAGUE CONS:

1. Competitiveness would be the primary consideration in designing new districts, and could infringe on the rights of minority voters to elect representatives of their choice.
2. The provision delineating membership on the independent redistricting commission is so restrictive that members will not be easily found, and may unconstitutionally restrict political participation by members.
3. The boundaries for competitive districts may not, in the end, look that much different from current gerrymandered districts. If standards such as compactness and other criteria established by the U.S. Supreme Court are not followed, the plan could be subject to judicial challenge.

ISSUE 5: PROPOSED ELECTION ADMINISTRATION

PROPOSED CONSTITUTIONAL AMENDMENT

(Proposed by Initiative Petition)
 To adopt Section 4 of Article XVII of the Constitution of the State of Ohio.
 To create a newly appointed board to administer elections, this amendment would:

- Eliminate responsibility of the elected Ohio Secretary of State to oversee elections.
- Create an appointed board of nine members to administer statewide elections and oversee the existing county boards of elections.
- Provide that the members of the board are appointed as follows: four by the governor, four by

the members of the general assembly affiliated with the political party that is not the same as that of the governor, and one by a unanimous vote of the chief justice and justices of the Ohio Supreme Court. The member appointed by the Supreme Court may not be affiliated with a political party. The governor and members of the general assembly must appoint equal numbers of men and women and take into consideration the geographic regions and racial diversity of the state. Members would serve staggered nine-year terms. Members may not hold any elective or other appointive public office, be a candidate for public office, hold a position with a political party, or be a registered lobbyist, and would be prohibited from making or soliciting political contributions and being involved in a candidate or ballot issue campaign.

- Require the state board of elections supervisors to hire an administrative director, to prescribe uniform procedures to be followed by the county boards of elections, to appoint and remove members of the county boards of elections in accordance with statutory provisions, to certify the petitions of candidates for statewide offices and petitions for statewide ballot issues, to certify all equipment and systems used for voting and counting of votes, to approve ballot language for all statewide issues, and to maintain a statewide voter registration file.

- Require the General Assembly to set a reasonable level of compensation for the members of the state board of elections supervisors and to appropriate sufficient funds for the board to be able to fully perform its duties and to compensate such staff and to acquire such equipment, supplies and office space as necessary for such performance.

LEAGUE EXPLANATION: This proposal would establish a bipartisan state board of elections supervisors as the state's chief elections authority, a responsibility currently held by the secretary of state. The state board of elections supervisors would function similarly to Ohio's county boards of elections. They would hire a director to manage the day-to-day functions of election administration, but the board itself would retain authority to make all final decisions on elections matters.

LEAGUE PROS:

1. An independent board of elections supervisors would remove the possible taint of partisanship or conflict of interest on the part of an elected secretary of state in the administration of elections.
2. Selecting, rather than electing, a state director of elections would professionalize the elections staff, which currently is subject to a partisan system of patronage.

LEAGUE CONS:

1. The amendment wording fails to remove from the Ohio Constitution the election administration powers of the secretary of state, thereby creating a conflict within the Constitution.
2. Even though the board would hire a state director, the board itself is charged with making all election-related decisions by majority vote, thus diffusing accountability when something goes wrong and introducing the possibility for partisan wrangling.

Show You Care and the League of Women Voters have paired up to offer a Voter Information Hotline from 6:30 a.m. to 6:30 p.m. on Election Day. Volunteers from the Metropolitan Columbus Chapter of the League of Women Voters will be answering questions from voters who need more information about the voting process on Tuesday, November 8th. The Voter Information Hotline will allow voters to have questions answered, find out if they are registered to vote and where their polling place is located. Volunteers will have access to voter registration information in Franklin County and are able to provide additional information for surrounding counties' Boards of Elections.
