The League of Women Voters of Metropolitan Columbus Educational Fund prepared this material. Candidates were informed of the following:

- Each response would be printed exactly as received, and each candidate would be responsible for the content of the replies.
- All responses were given a word limit; once the response exceeded the word limit, then the remainder of the response was cut off.

Information and answers from the candidates have not been evaluated in any way. The League of Women Voters, in presenting this material, neither endorses nor rejects the views of any candidate quoted, and does not and cannot assume responsibility for the content of any candidate's reply or motive.

Considering all that our country has been through in recent times, it is more important than ever that citizens be informed about the candidates and issues before them. The mission of the League of Women Voters is to encourage the informed and active participation of citizens in government and to increase understanding of major public policy issues.

The publication editor is Amy Pulles with assistance from Robert Brown, Lucy & David Buzzee, Jeff Cabot, Barbi Crabill, Ann Henkener, Anne Hoke, Marilyn Huheey MD, Mary Kaul, Erin Michel, and Margaret & Stuart Wright. The LWVMC Educational Fund President is Kitty Burcusu.

The information in this bulletin can also be found on the League of Women Voters website at www.lwvcols.org. For membership information in the League of Women Voters, please see our website at www.lwvcols.org.

FRANKLIN COUNTY MUNICIPAL COURT

Questions for all Municipal Court Judge Candidates:

Question 1: What do you perceive as the greatest obstacles to justice in our judicial system? (100 word limit)

Question 2: What strengths will you bring to the position of Municipal Court Judge? (100 word limit)

Please see www.lwvcols.org for more questions.

MUNICIPAL COURT JUDGE (FTC 1/1/12)

PEEPLS, ANDREA, 5596 Winsor Woods Drive, Columbus, OH 43230

Email: reelectpeepls@gmail.com

Website: www.judgepeepls.com

Education: B.A. Miami University; J.D. Ohio State College of Law

Occupation: Judge, Franklin County Municipal Court

Qualifications for Office: I have served a full term as an elected Municipal Court Judge. I have experience as a defense attorney and prosecutor in Municipal Court. I have civil litigation experience and have practiced in common pleas juvenile (over word limit)

Question 1: The greatest obstacle in our justice system is financial inequity. I frequently hear defendants or their attorneys asserting that they are resolving cases to avoid additional time away from work. Defendants with financial resources are able to avoid greater sentencing penalties because they can pay for counseling or other alternatives. Situations such as this highlight the inequities in the judicial system. As Judge, I would like the opportunity to continue my work with Court administration to correct these issues.

Question 2: My strength is having the experience of handling cases from the perspective of defense and prosecution. This allows me to fully understand cases from the initiation to disposition. I have gained a global perspective on how case disposition effects not only defendants but also victims, witnesses, and law enforcement. I am always willing to work toward the best solution not just the fastest one.

PFEIFFER, BARBARA, 493 Richards Rd., Columbus, OH 43214
Email: pfeifferforjudge@gmail.com
Website: www.pfeifferforjudge.com

Education: BA and JD from Ohio State University

Occupation: Assistant Attorney General.

Qualifications for Office:

Received highest rating possible, "Highly Recommended", from the Columbus Bar Association Judicial Screening Committee. My opponent was rated lower. Twenty five years experience practicing law, both Civil and Criminal, including over forty jury trials in Franklin County Municipal Court.

Question 1: One of the greatest obstacles to justice is best described in the famous quote: "justice delayed is justice denied". Frustration and hardship result to witnesses and parties with repeated court appearances due to continuances and is an obstacle to the efficient administration of justice. I will allow witnesses to be placed on call when appropriate and will strive to resolve cases in two appearances or less. The current system makes it difficult for people to resolve their cases in just one court appearance. I would support allowing persons to enter pleas in minor cases through the internet.

Question 2: I will treat all persons appearing before me, regardless of status, with equality, dignity and respect. I have participated in thousands of cases both as a prosecutor and civil trial lawyer. As a litigator, I understand the importance of timeliness and efficiency. I pledge to start court on time and will make municipal court more efficient. I will apply the law firmly and fairly with respect and professionalism; I will enforce the law and not seek to create law. Finally, I am patient and a good listener and will be accessible to the people appearing before me.

Question 1: The greatest obstacle in our justice system is financial inequity. I frequently hear defendants or their attorneys asserting that they are resolving cases to avoid additional time away from work. Defendants with financial resources are able to avoid greater sentencing penalties because they can pay for counseling or other alternatives. Situations such as this highlight the inequities in the judicial system. As Judge, I would like the opportunity to continue my work with Court administration to correct these issues.

MUNICIPAL COURT JUDGE (FTC 1/2/12)

MAYNARD, W. DWAYNE, 7903 Wiltshire Ct., Dublin, OH 43016

Email: jervin@beneschlaw.com

Website: www.judgemaynard.com

Education: Bachelor of Arts from Brown University Providence, Rhode Island; Juris Doctorate from The Ohio State University, Columbus, Ohio

Occupation: Franklin County Municipal Court Judge

Qualifications for Office: Over 18 years of judicial experience; Highly Recommended by the Columbus Bar Association screening committee & Central Ohio Association for Justice; Endorsed by unions and law enforcement

Question 1: The greatest obstacles to justice in our judicial system are "available resources." Available resources meaning economic support in various forms. Whether it is the financial ability to retain legal representation

or support publicly available legal representation (i.e. public defenders and legal aid), monies to support community agencies and judicial programs that assist offenders with drug, mental health, or other agencies and judicial programs that assist offenders with drug, mental health, or other disabilities, or dollars for infrastructure to keep pace with an ever changing and growing society, the lack of available resources often times severely impacts our judicial system. We (over word limit)

Question 2: The greatest strengths I bring to bear are experience, temperament, and fairness. For over 20 years, I have tried, heard, and resolved cases in the Municipal Court system. Therefore, I have the knowledge necessary to address whatever may come before a Judge, and the wisdom to know that I must remain open, learned, and humble to respond to new issues that arise. Additionally, I am known to possess an even temperament that is not easily swayed. I am also fair and respectful of all people. I understand that each person is unique, and every case must be treated as such.

YOUNG, DAVID, 6100 Wynford Drive, Dublin, OH 43017

Email: davidyoungforjudge@gmail.com

Website: davidyoungforjudge.com

Education: Miami University (B.S. 1983, Accounting and Finance); Washington University (J.D. 1986)

Occupation: Attorney at Law

Qualifications for Office: CBA Judicial Screening Committee recommendation "Highly Recommended"; Former Franklin County Assistant Prosecuting Attorney; Trial Attorney 18 years; Selected by peers for inclusion in 2011 edition The Best Lawyers in America(r); Business First: November 2010, Top Lawyers, (over word limit)

Question 1: I believe "access" to our judicial system is perhaps the greatest obstacle we face today. During the past 25 years of litigating both civil and criminal cases, I have realized that many parties and jurors do not view our court system as truly being accessible when they have to take time off of work. This frequently causes significant economic harm to our citizens and essentially prohibits them from being a part of our judicial system and /or prohibits them from using our judicial system. Our citizens want efficient, reliable and affordable access to a fair and impartial justice system.

Question 2: I believe that a Judge

is one of the most important positions in the American judicial system and being a Judge carries tremendous responsibilities. With one stroke of the pen, a Judge can change a person's life. Attorneys entrusted with such responsibilities should be of the highest moral character, possess proper judicial temperament and be fair and impartial. All qualities I believe I have demonstrated throughout my 25 years of practice. I am seeking to become a Judge to provide the citizens of Franklin County with my vast, diverse real world and legal experiences.

MUNICIPAL COURT JUDGE (FTC 1/3/12)

BRANDT, MICHAEL, 1393 Fergus Rd., Grove City, OH 43123
Uncontested Race

MUNICIPAL COURT JUDGE (UTE 1/6/16)

BROWN, ERIC, 34 W Poplar Avenue, Columbus, OH 43215

Email: judgebrown@gmail.com

Website: www.brownforjudge.com

Education: J.D., Cleveland-Marshall College of Law

Occupation: Judge, Franklin County Municipal Court

Qualifications for Office: Judge and lawyer for more than 30 years; Dedicated public servant: 21 years as an elected official; Criminal Justice Planning Board Member; Extensive leadership and management experience; Former assistant attorney general; Devoted husband of 38 years, father and grandfather

Question 1: Courts (and government) serve by consent of the people, which means that to provide justice, courts and judges must have the trust and confidence of the people they serve. Throughout my judicial career, I have worked to ensure that all person who come to court are treated with respect and courtesy, that all persons have their matters considered fairly and impartially, and that every person leaves the court knowing that they have been heard. Achieving these goals also requires a commitment to diversity and equality. I believe that judges and lawyers should be actively engaged in their communities.

Question 2: More than three decades as a lawyer and public servant, including substantial judicial experience, have prepared me for service on the largest and busiest municipal court in Ohio. The depth and breadth of my background allows me to provide the quality of justice our community deserves. I provide justice that is fair and impartial. I am patient, listen well, and I have

the right temperament for service as a judge in a high volume court. I have a strong work ethic, and I am prompt and thorough. I maintain and demonstrate the highest integrity in my professional and personal life.

O'GRADY, JIM, 9231 Echo Hill Ct., Columbus, OH 43240
Email: ogradyforjudge@gmail.com
Website: jimogradyforjudge.com
Education: BA -Ohio Dominican University; JD -Capital University
Occupation: Franklin County Assistant Prosecuting Attorney
Qualifications for Office: Fifteen years experience in Franklin County Municipal Court. Rated Highly Recommended by the Columbus Bar Association Judicial Screening Committee. Preferred in the Columbus Bar Association attorneys poll.

Question 1: It's complexity. The "judicial system" exists to give people a place to fairly resolve disputes; to decide who is right and who is wrong. But we've gotten so bogged down in technicalities that justice can be hard to find without an attorney. Of course, there are matters that are complex that having an attorney is necessary, but not every case is a federal antitrust lawsuit. The people should be able to get fair, predictable, and consistent justice, and they could do that if we focus on simplicity and fairness instead of outdated legalese.

Question 2: Having fifteen years experience working in the Municipal Court, I understand the dynamics that make the court work; I understand the purpose of municipal court as the first, and sometimes only, point of contact most citizens ever have with the judicial system. I understand how important that contact is for them, and I won't fall into the "it's only a misdemeanor" trap that some judges do. Also, I'm fluent in the language of the municipal court: I know its rules and procedures, the criminal and civil laws it deals with, and the attorneys and their relationships with one another.

MUNICIPAL COURT CLERK

WHITE, ANGELA, 2731 Tally Ho Ln, Blacklick, OH 43004

TOLEDO, JR, ROBERT, 7160 Old Creek Ln, Canal Winchester OH 43110
No survey received.

CITY OF COLUMBUS

MAYOR

Questions for Mayor Candidates:

Question 1: In light of recent federal and state budget cuts, what specific cuts or revenue enhancements would you recommend to maintain the city's financial stability? (100 word limit)
Question 2: What should the city's role be in economic development and urban renewal? (100 word limit)
Please see www.lwvcols.org for more questions.

BROWN, JEFF. 310 E 9th Ave., Columbus, OH 43201 (write-in)
Email: jeffbrowformayor.com
Website: jbformayor@gmail.com
Education: Photography and Cinema Major, The Ohio State University 1979-1981

Occupation: Foodservice.
Qualifications for Office: Served 15 years as video production coordinator for Columbus Public Schools and 9 months working in City Hall covering City Council meetings for GTC-3. Legal experience including a case before the U.S Supreme Court. Broader life experience and vision.

Question 1: In the last two years, the American economy has taken an enormous hit. In this same period, American corporations have reaped record profits and are literally sitting on trillions of dollars in profits. We're not broke, the money's there. These corporations are not reinvesting in the communities, they're not hiring, and they don't want to pay a dime in taxes. This leaves little choice but to compete for those dollars. In the next decade energy is going to become a critical issue and a very profitable business. Columbus needs to use its existing power company to compete for those dollars.

Question 2: The city will use its profits from the energy business to support infrastructure, healthcare, and education. We need to focus directly on the issue of poverty.

COLEMAN, MICHAEL B., 93 W Town St, Columbus, OH 43215
Email: roberts.lee44@gmail.com
Website: colemanforcolumbus.com
Education: B.A., Political Science, University of Cincinnati; J.D., University of Dayton
Occupation: Mayor of the City of Columbus
Qualifications for Office: Served as Mayor of Columbus 2000-Present; Served on Columbus City Council 1992- 1999; Served as Columbus City Council President 1997- 1999

Question 1: Despite the two major national recessions in the last decade the city of Columbus under my fiscal leadership has maintained the highest credit rating, better than the federal government's or any city of its size. In my 4th term I will continue this strong fiscal leadership, while pursuing savings in pensions and benefits through the collective bargaining process and will continue to find cost savings through government efficiencies.

Question 2: Strong urban neighborhoods are a key component to a strong and healthy city. Under my leadership Columbus has engaged in

partnerships with developers and the community to build strong urban neighborhoods to live, work and raise a family. Our housing, infrastructure, and economic development efforts in Franklinton, the King Lincoln District, the Morse road corridor, the Four Corners area of South Linden, the area surrounding Children's Hospital, American Addition, and Weinland Park show the strength of these partnerships. We are embarking on a comprehensive effort involving housing, job creation, healthcare, safety and infrastructure to revitalize parts of the south side.

SMITH, EARL, 5121 Southminster Rd, Columbus, OH 43221

Email: earl@earlformayor.com
Website: www.earlformayor.com
Education: Nationally recognized authority on Crime Prevention Through Environmental Design (CPTED). Certified Crime Prevention Specialist. Master Trainer in Terrorism Awareness and Prevention.

Occupation: Career Law Enforcement Officer

Qualifications for Office: Three decades working in Columbus neighborhoods. Twice awarded Medal Of Merit. Named Crime Prevention Practitioner of Year. Demonstrated success building alliances. Small business owner.

Question 1: I would first conduct a top to bottom budgetary review of city finances. We must have a precise picture of exactly where / how city funds are being expended. As cuts often result in reduced city services, I would hope cuts would not become necessary. The efficiency and effectiveness of city operations must be maximized. The focus of city government must be returned to the necessities such as infrastructure support. Any "extra" revenue, such as casino taxes, should be directed toward neighborhood revitalization and similar critical needs. I will not support new taxes.

Question 2: Urban renewal is a critical concern. Neighborhood deterioration is threatening the viability of our city. I will partner with private sector professionals and community leaders to determine the best path to restoration on a task-specific approach to each neighborhood. My extensive experience in the study of the built environment will help in developing and implementing a viable revitalization plan. Economic development must also be accomplished in partnership with the private sector and neighborhood leaders. It is time for a holistic approach to city growth as opposed to the patchwork of

largely disparate projects that has created conflicts and failures.

MEMBER OF CITY COUNCIL (vote for 4)

Questions for City Council:

Question 1: In light of recent federal and state budget cuts, what specific cuts or revenue enhancements would you recommend to maintain the city's financial stability? (100 word limit)

Question 2: What should the city's role be in economic development and urban renewal? (100 word limit)

Please see www.lwvcols.org for more questions.

BRIDGES, JR., ROBERT F., 2724 Christine Blvd, Columbus, OH 43231

Email: None given.

Website: None given.

Education: See below.

Occupation: See below.

Qualifications for Office: A blue-collar employee, I know firsthand what it is like to live within a budget. And while I may not be an attorney, I have been active in grassroots politics for five years, and consider myself to be a fair citizen legislator. I have received multiple awards, including two consecutive (over word limit)

Question 1: In times of fiscal crisis, city leaders must focus on the basics of government functions. This means making some tough calls. We must look at our budget and ask if some programs need to be facilitated by local government. For example, one stated objective in the 2011 budget is to combat childhood obesity. To accomplish this ambitious goal requires hefty funding. Certainly city officials have voter's best interests in mind; however, I believe our limited revenue is better used to bolster essential services. That being said, I would absolutely support community initiatives to address the obesity issues facing our children.

Question 2: Contrary to popular belief, leaders in government cannot create a significant number of jobs. What we can- and should-do is to create an environment in which businesses and residents can thrive. The overwhelming majority of revenue in our general fund comes from income taxes. A declining job market means a shrinking tax base. For this reason, I consider job creation to be the most important priority for council members today. We must have honest dialogue about why businesses and citizens are moving to outlying suburbs, and work with community leaders to create that thriving environment.

CRAIG, HEARCEL F., 1026 Linwood Ave, Columbus, OH 43206

Email: jayme@andrewginther.com

Website: craigforcolumbus.com

Education: Master of Science in Administration degree from Central Michigan University
Occupation: President Pro Tem Columbus City Council

Qualifications for Office: Current member of Columbus City Council

Question 1: Since 2009, City Council has kept its commitment to streamline government while maintaining vital city services. In 2011, Council saved the \$1.9 million carryover from 2010 -and asked the mayor to cut an additional \$1 million from his proposed budget. Now we are on track to save \$144 million by 2019, while replenishing our rainy day fund. Columbus' AAA bond rating reflects the strong financial stewardship we have provided. To enhance revenue, we will continue to actively pursue economic development projects that grow jobs and make Columbus a great place to live and work.

Question 2: It is imperative that the City of Columbus continues to facilitate responsible private/ public partnerships that spur economic growth and vital reinvestment in neighborhoods. Our work with small businesses and local leaders reflects this goal. Whether it's microloans for new entrepreneurs or the redevelopment of the Weinland Park neighborhood, Columbus must continue to be innovative in our approach to economic development and urban renewal. Looking ahead, I will work with my Council colleagues to champion small business development policies that increase access to capital, enhance mentorship opportunities and incentivize innovation and expansion in Columbus.

FERRIS, MATT, 324 E Sycamore St, Columbus, OH 43206
No survey received.

GINTHER, ANDREW J., 98

Montrose Way, Columbus, OH 43214

Email: jayne@andrewginther.com

Website: andrewginther.com

Education: Bachelor of Arts, Earlham College

Occupation: Vice President of Community Affairs and Outreach for the Children's Hunger Alliance
Qualifications for Office:

Current President of Columbus City Council; Former member of Columbus Board of Education
Question 1: Creating well-paying jobs is the key to the long-term financial stability of the City. I will continue to work to retain and grow local businesses, while attracting new companies

to Columbus by creating the conditions whereby businesses can thrive, leveraging the strength and safety of our neighborhoods, and capitalizing on our overall quality of life in Columbus. I will continue to work to make City government more efficient, reduce employee health care and pension costs, and expand the use of cost-saving technology. Having already implemented many of these changes, the City is on track to save \$144 million by 2019.

Question 2: The City is leading the way in an unprecedented public -private partnership to spur economic development: Columbus 2020!. This partnership is focused on adding 150,000 new jobs by 2020, increasing personal income, and leveraging \$8 billion dollars in new capital investment. At the same time, the City partners with groups like ECDI, CCDC, TechColumbus, and Columbus State to improve access to capital and provide services to promote small businesses. In the last five years, EDCI has helped over 100 small businesses in Columbus, and our investment in TechColumbus helped secure \$15 million in central Ohio technology companies.

HENNESSY, DARYL, 2965 Palmetto St, Columbus, OH 43204

Email: hennessyforcolumbus@gmail.com

Website: www.darylhennessy.com

Education: Master's Degree in Public Policy and Management from Ohio State University.

Certified Economic Development Professional.

Occupation: Owner and President, Hennessy Landscaping

Qualifications for Office: Small business owner with private-sector job creation experience. Twenty years of volunteer service in Columbus neighborhoods. Seven years of public finance experience at state and federal budget offices.

Question 1: Recent cuts in state and federal funding should have no measureable impact on the city's long-term financial health. While these cuts are temporarily painful, proper management of existing resources and a vibrant jobs market are the keys to maintaining the city's financial stability. I have proposed an alternative budget for the city that lives within our means and prioritizes support for job creation. I offer this plan in contrast to a city budget that spends more than it receives in annual revenues and is structurally out of balance despite a recent 25% tax increase. See my website for details.

Question 2: Creating a low-cost, competitive business environment where private-sector job creation thrives should be the city's primary

"policy" for supporting economic development and urban renewal. This approach to governance will encourage entrepreneurs to take risks and start businesses, existing small businesses will grow and create jobs, large businesses will have the certainty needed to make investments that enable them to compete in the global marketplace, and neighborhoods will stabilize because households will benefit from the new job opportunities. Beyond that, temporary and innovative policy approaches for redevelopment of some blighted neighborhoods may be needed until the housing market returns.

KLEIN, ZACH M., 268 E Second Ave, Columbus, OH 43201

Email: Zach@zachklein.org

Website: www.zachklein.org

Education: BA, The Ohio State University, 2001; JD magna cum laude, Capital University Law School 2004

Occupation: Attorney, Jones Day
Qualifications for Office: Member -Columbus City Council; Assistant Attorney General

(Ohio); Special Assistant United States Attorney

(Southern District of Ohio); Deputy Director of Management and Administration, office of the President of the United States

Question 1: The City of Columbus is the largest city in the nation with a AAA bond rating, which means that our finances are strong and taxpayers save money with lower interest rates on city-owned debt. Our investments must continue to be in economic development and job creation, while maintaining efforts to ensure that we have strong and safe neighborhoods. We must make sure that we balance necessary investments with strong ongoing financial stewardship. It is also critical that the city continue to partner with the private sector so that we can maximize public and private investment.

Question 2: The city plays a vital role in facilitating economic development and urban renewal. Public -private partnerships are one way that the City of Columbus is working to facilitate economic growth. Through these arrangements, private enterprise brings ingenuity, investment, and ideas and pairs them with public resources, such as infrastructure upgrades and utility improvements. We must continue to actively encourage private business investment to ensure job growth. The City of Columbus has and will continue to partner with private entities to ensure job creation and promote strong neighborhoods.

MILLS, MICHELLE M., 2456 Ashpoint St, Columbus, OH 43219
Email: michellemarie.mills8@gmail.com
Website: millsforcolumbus.com
Education: BA, MSSA
Occupation: President/ CEO St. Stephen's Community House
Qualifications for Office: More than 20 years in community leadership, fiduciary responsibility of over 1 million in community resources

Question 1: I recommend that we continue to spend resources conservatively. It is critical that these decisions are balanced with investments that ensure continued financial stability. In addition, I believe that critical investments to safety are highly beneficial as we continue to partner with the community to make neighborhoods a safe place to live and work. I believe that our financial stability is based on the continued growth of our city. However, we must remain mindful of the impact that growth has on city services and make spending decisions accordingly.

Question 2: The City of Columbus must continue to serve as a leader in our region fostering public private partnerships that spur urban renewal. We need to ensure that there are affordable housing opportunities that provide a solid foundation for economic integration. Federal, state and local partnerships will be vital to meeting our regional needs as we work to serve an ever evolving population.

NOBLE, MARK, 723 Springs Dr, Columbus, OH 43214
Email: mark.noble@lpo.org
Website: http://voteornoble.com
Education: B.S., The Ohio State University, 2007 in Electrical and Computer Engineering
Occupation: Software Engineer, Electronic Classroom of Tomorrow (ECOT)

Qualifications for Office: With 15 years of experience in the private sector I've used technology to resolve issue facing businesses in Columbus's key industries. This knowledge can help lead the City's economic recovery.

Question 1: There are core services that the City cannot afford to neglect: Police, Fire, Garbage collection, Parks, Libraries, Critical Infrastructure, Snow Removal; All other services should be closely reviewed. Big government on a city level is not beneficial to the average Columbus citizen. It is also not beneficial to the city's businesses. Both want their core services taken care of, but they want cost-conscious government. All city services should be under constant critique by both elected officials

and the general public. Answering "Is this necessary to the health and vibrancy of our city?"

Question 2: Tax incentives to businesses lead to job growth. These incentives should be applied broadly and liberally, allowing business to thrive, and job growth to flourish. This city needs growth and employment. New business means new jobs, expanding business means more jobs -all beneficial to the citizens of Columbus and a catalyst for urban renewal. This vision can become a reality.

COLUMBUS PUBLIC SCHOOLS, BOARD OF EDUCATION (vote for 4)

Questions for Board of Education Candidates:

Question 1: In light of recent federal and state budget cuts, what specific cuts or revenue enhancements would you recommend to maintain the school's financial stability? (100 word limit)

Question 2: How should teacher quality be evaluated? (100 word limit)

Please see www.lwvcols.org for more questions.

GIBBS, W. SHAWNA, 2331 Argyle Dr, Columbus, OH 43219
Email: wshawnagibbs4cps@yahoo.com

Website: www.gibbs4kids.org
Education: Columbus Alternative HS, Clark Atlanta Univ. BA. Political Science

Occupation: Communications Director, IMPACT Community Action
Qualifications for Office: CCS Graduate, 5 years service in current position, Since 2007, W. Shawna Gibbs has advocated for high quality education for all children as a member of the Columbus Board of Education. Currently, Gibbs is the Communications (over word limit)

Question 1: To maintain financial stability in an ever changing funding climate, we must support what works and eliminate what doesn't. During my five year tenure on the Columbus Board of Education, we have cut and closed in almost every area to achieve academic and operational efficiency. From bus stops and school buildings to personnel, programming and purchases, we strive to maintain progress and minimize impact to learning. I recommend increasing revenue by recapturing and retaining students who have left the district, advocating for the ability to gain public support through community bonds /levies and seeking

innovative funding for teaching and learning.

Question 2: We should evaluate teachers honestly, consistently, comprehensively, stringently, regularly, fairly, ethically, objectively and realistically. Teacher evaluation tools will continue to evolve as we navigate national trends, changing state academic standards and district performance goals. Evaluation rubrics should include content mastery, student test scores (including value added measurements) for the past three years, frequency and quality of parent engagement, alignment of professional development to improved, effective classroom instruction and environment. To prepare students for a global economy we must also reward teachers for innovation, creativity and effective classroom management. It should also include lesson preparation, professionalism and conflict resolution skills.

PERKINS, CAROL L., 1580 Melrose Ave, Columbus, OH 43224
Email: None given.

Website: Whycarolcares.com
Education: Bachelor of Science in Human Resources Management -Franklin University
Occupation: Director of Mobility Services; Central Ohio Transit Authority (COTA)

Qualifications for Office: I was appointed to the Columbus Board of Education in February 2007. I ran for the office in 2007 and 2009. I have served as Vice President in 2008, and as President (over word limit)

Question 1: CCS continues to honor its' commitment to our community regarding fiscal responsibility and management. As Board President, I have focused the work of the Board on this primary objective. I consider this objective second only to ensuring the continued success of our community, through the delivery of 21st century academic services to our families and our children. Moreover, under my leadership, we have successfully negotiated balanced labor agreements that both support the operational requirements of the District, and respect the history of, and contributions that our labor groups have made to this community. Additionally, we have worked aggressively to reduce (over word limit)

Question 2: In CCS, we recognize that a one-size-fits-all approach to the allocation of resources in public education does not work. We also recognize that there is a difference between Teacher Equity and Teacher Equality; that both

should be focused on Teacher Efficacy. Toward that end, my goal has been to ensure Teacher Efficacy throughout the District. As Board President, I have worked to advocate for resources for all of our students and teachers. I have supported bond & levy ballot actions designed to fund 21st century academic environments for all students and teachers, and designed to facilitate the (over word limit)

STEWART, BRYAN, 7690 Calderdale St, Blacklick, OH 43004
Email: bryan@bryansteward.org
Website: bryansteward.org
Education: B.S., M.B.A., J.D.

Occupation: Attorney
Qualifications for Office: Graduate of Columbus City Schools; Attorney practicing in civil litigation and juvenile law; Member of Columbus Board of Education in 2009, Audit and Accountability committee, Neighborhood School Development Partnership; Adjunct Professor and Former University Admissions Officer who extensively worked with Columbus City Schools students.

Question 1: Since 2008, Columbus City Schools has made approximately \$130 million in cuts. Of these cuts, \$23.4 million were due to building closings. With the proposed loss of \$27.5 million due to state budget cuts it is likely that the district will continue to reduce costs which may include additional building closing. With these reductions, the vacancies of buildings and other unused assets present an opportunity for revenue generation that can put teachers and resources directly back into the classroom. Accordingly, I would propose a detailed evaluation of all unused/ underused assets within the district and create a strategy for revenue (over word limit)

Question 2: Teacher quality should be evaluated using several factors: student achievement, parent interaction, and professional evaluation and mentoring. I believe that student achievement is directly a result of professional competence and quality. Standardized testing does not fully assess teacher quality; however, day-to-day learning, professional mentoring, and evaluation does. Proper mentoring and evaluation comes from continued input from all stakeholders. Accordingly I believe that the teachers should not only be evaluated by senior peers and administrators, but should receive constructive input from parents and students to help with continual improvement.

Website: www.bakerfortheboard.com

Education: Bachelor's Degree from Otterbein College Major: Accounting Minor: Business Administration
Occupation: Banker with Huntington National Bank
Qualifications for Office: I am an incumbent member of the Board of Education who has served more than 3.5 years. I have a long record of community and public service dating back more than fifteen years and I (over word limit)

Question 1: Recent budget cuts will continue to put pressure on the Board of Education and district administration to do more with less. The district has participated throughout the state budget process and has planned in a thoughtful and informed manner how best to address the cuts to education funding. A plan of specific cuts has been put into place that will allow the district to live within its means. The district will consider whether or not to place a levy on the ballot in 2012. The Board and administration will remain focused on 100% student success.

Question 2: Despite the fact that it sounds simple, teacher quality is difficult to quantify. There is much student test data that can be used, but how do we decide which test(s)? And do tests for students who transferred in to a school midway through a year count? Peer review could also be used to assist in evaluating teacher performance. I have been consistently impressed with the teachers I have met during my tenure on the Board of Education. The Ohio Department of Education will likely provide a framework that districts can use to evaluate teachers.

EDWARDS, TRENT, 110 N. Third St. #605, Columbus, OH 43215
(write-in)
Email: votefortrent@gmail.com
Website: www.votefortrent.com
Education: B.S.B.A.
Occupation: Assistant Chief Pilot, NetJets Aviation Inc.
Qualifications for Office: My number one qualification is a lifelong devotion to helping students be successful in life and to

achieve goals that they didn't think they could.

Question 1: It is time to return to the core values of education to ensure we can meet the districts graduation rate goal and, more importantly, guarantee 100% success of our children. Programs should be evaluated for their effectiveness and value added benefits against their costs. Every decision should be made with a student-centered academic excellence mind set. In addition, education dollars need to be pushed down to where the rubber meets the road, the classroom.

Question 2: There are really two parts to this question, competence and quality. The best person to evaluate both of these is the teacher's immediate supervisor. The immediate supervisor needs to be honest and objective in applying a state developed standard that identifies a competency and a district developed criteria for quality. Many professions require annual competency tests that lead to retention of licensure or certifications. Quality standards are normally assessed to identify promotions and/or raises. These evaluations will only be effective if they are administered with objectivity, fairness, and honesty and the district should ensure the supervisor adheres to this.

Qualifications for Office: **Question 1:** Adjust transportation vehicles and routes to ensure efficiency. We currently have far too many buses that are not operating at capacity. We can cut transportation costs by instead using more fuel efficient vehicles such as vans. This will lower fuel and maintenance costs, without having to cut jobs. Placing a hiring freeze on jobs in the district until we are financially stable would also be an option. I would not feel comfortable going to voters for a

levy until a higher rate of academic success is achieved for all students attending Columbus City Schools. **Question 2:** Teacher quality should be evaluated daily by administrators who can provide immediate feedback and support. As an administrator, I was charged with evaluating teaching staff on a daily basis with the goal of improving lesson delivery and decreasing behavioral issues. For teachers, it helps to have positive feedback on the effectiveness of lesson delivery, and it helps morale in the building; letting teachers know that administrators and coaches are a part of the team. This also alerts students to the fact that an administrator is closely monitoring their behavior and effort-in the classroom, and not just when a problem occurs.

TAYLOR, JACQUELINE M. 2986 Footloose Dr, Columbus, OH 43231 (write-in)
Email: taylorccs2011@gmail.com
Website: www.taylorforccsb.me
Education: Certified Project Manager, studied at Columbus State Community College and Otterbein University

Occupation: Portfolio Manager
Qualifications for Office: Extensive experience in project and portfolio management, translating strategy into action and results. Skill in reviewing trends and assessing current conditions to make informed decisions.

Question 1: First I would like to understand where we are inefficient in operational spending before making budget cuts in our local school system. If we were to understand our expense ratio, revealing areas where we are inefficient then that is where the cuts should be made. These inefficiencies must be looked at over a 3-5 year period while looking at the value programs provide. There are effective ways to decrease cost while maintaining value. Cuts that enhance the learning experience and empower our youth should not be made!

Question 2: In evaluating a teacher's performance, their success rate should be taken into consideration. This success rate should be based upon what and how they train our youth; determining whether a teacher has put into place a teaching plan "tailored" toward each student or at least 80% of the student base is a key to his/her quality. With a training plan tailored to the 80%, then an effective teacher will ensure the 20% has a 'safety net' to help ensure those students' success as well.

LEAGUE
OF WOMEN
VOTERS
of Metropolitan
Columbus

www.lwvcols.org

STATE OF OHIO BALLOT ISSUES

ISSUE 1: PROPOSED CONSTITUTIONAL AMENDMENT TO CHANGE THE AGE AT WHICH A PERSON MAY NOT BE ELECTED OR APPOINTED TO A JUDICIAL OFFICE AND TO ELIMINATE COURTS OF CONCILIATION AND THE SUPREME COURT COMMISSION

(Proposed by Joint Resolution of the General Assembly of Ohio)

To amend Section 6 and repeal Sections 19 and 22 of Article IV of the Ohio Constitution

A YES vote means approval of the amendment.
A NO vote means disapproval of the amendment.

A majority YES vote is required for the amendment to be adopted.

If approved, the proposed amendment will take effect immediately after the election.

League Explanation of Issue 1: Currently a candidate for judge is not eligible to run or be appointed if the candidate will be 70 years old or older when assuming the office. The proposed change would prohibit a candidate for judge from being elected or appointed if that candidate exceeds the age of 75 years. This would allow a judge to assume office at age 75 and serve out a six year term, meaning that a judge could potentially serve until age 81. Currently Ohio is one of 20 states with an age of retirement of 70 years. Eighteen states have no age limit. Four have a retirement age of 72, seven have a retirement age of 75, and one has a retirement age of 90.

The amendment would eliminate the Supreme Court Commission (established in 1875) and Courts of Conciliation (established in 1851). Neither has ever been utilized.

Proponents of the proposed amendment argue that:

1. In 2011 people live longer and are mentally sound longer than was the case in 1968, when the current age limit was adopted.
2. Experienced, knowledgeable judges should be permitted to run for office. Voters should determine if a candidate for judge is able to serve.
3. If a judge is unable to perform judicial duties because of age or any other reason, the Ohio Supreme Court can discipline or remove the judge. In addition, judges are subject to

impeachment proceedings in the Ohio General Assembly.

Opponents of the proposed amendment argue that:

1. Having a higher age limit effectively creates a more entrenched judiciary.
2. The current system works and there is no compelling reason to change it.
3. Extending the retirement age will burden the courts with some judges whose best years are behind them.

ISSUE 2: REFERENDUM ON LEGISLATION RELATIVE TO GOVERNMENT UNION CONTRACTS AND OTHER GOVERNMENT EMPLOYMENT CONTRACTS AND POLICIES

(A referendum on Am. Sub. SB 5)

A YES vote means approval of SB 5.
A NO vote means disapproval of SB 5.

A majority YES vote is required for SB5 to become effective.

If approved, the provisions of SB 5 will take effect immediately after the election.

League Explanation of Issue 2: Approval of SB 5 changes laws concerning public employees, in particular teachers, firefighters and police. Major changes affect collective bargaining rights, salary schedules and compensation, layoff procedures, and leave. For example, approval would: prohibit public employees from striking; eliminate binding arbitration as a way to settle contract disputes for safety forces; require performance-based pay for teachers; provide a minimum that public employees must pay for pensions and health insurance; allow the governing body (public employer) to impose its own last offer to settle a contract dispute.

Proponents of SB 5 argue that:

1. Schools and local governments need to reduce costs to balance their budgets. They must have the right to reject unaffordable government employment contracts.
2. Government employees should pay a larger portion of the cost of health insurance and retirement plans in an amount closer to that paid by private sector employees.
3. Seniority-based layoffs for teachers often force the best teachers to be laid off first.

Opponents of SB 5 argue that:

1. Public employees should have rights to protect themselves in the workplace. For example,

police and firefighters should be able to negotiate for critical safety equipment. Nurses should be able to demand reasonable staffing levels in hospitals.

2. The budget shouldn't be balanced by requiring additional sacrifices by Ohio's public employees who have already made over \$350 million in concessions. Corporations should give up their tax breaks.
3. Teachers, nurses and firefighters did not cause Ohio's budget problems.

ISSUE 3: PROPOSED CONSTITUTIONAL AMENDMENT CONCERNING HEALTH CARE AND HEALTH CARE COVERAGE

(Proposed by Initiative Petition)

To add a new Section 21 to Article I of the Ohio Constitution

A YES vote means approval of the amendment.
A NO vote means disapproval of the amendment.
A majority YES vote is required for the amendment to be adopted.

If approved, the proposed amendment will take effect 30 days after the election.

League Explanation of Issue 3: The amendment would add a section to Ohio's Bill of Rights exempting Ohioans from the requirement that individuals purchase a minimum amount of health insurance coverage (individual mandate). The requirement is found in The Patient Protection and Affordable Care Act (PPACA), a federal law passed March 19, 2010. The amendment would also apply to any similar federal, state or local law requiring participation in health insurance or a health care system. It would not apply to any law or rule in effect as of March 19, 2010. This would include health insurance coverage such as Medicare, Medicaid, workers' compensation, Social Security Disability, veterans' programs as of that date.

Generally, a state law, or a state constitutional provision, cannot override a federal law. The PPACA is currently being challenged in federal court as violating federal law. The provision exempting Ohioans from PPACA would likely have little or no effect on that challenge. However, if passed, the amendment could have a direct

impact on any Ohio law (state or local) with an effective date after March 19, 2010. Ohioans would be exempted from any requirement imposed by the Ohio legislature, or by any of Ohio's counties or cities, which would require individuals to purchase health insurance. It is unclear how far that might extend and what the impact would be on such issues as workers' compensation, Medicaid, or health services operated by the state such as clinics at state universities.

Proponents of the proposed amendment argue that:

1. The freedom from being forced to purchase government-defined private health insurance is a fundamental right that should be embodied in the Ohio Bill of Rights.
2. Government must be prohibited from passing laws requiring purchase of health insurance coverage.
3. Ohioans should be able to vote on whether they want to be covered by government-defined health insurance.

Opponents of the proposed amendment argue that:

1. Without required participation the entirety of the PPACA might be declared to be unconstitutional. Some consequences would be that insurance companies could continue to exclude people, including children, with preexisting medical conditions from getting health insurance coverage, and continue to impose annual and lifetime caps on health care coverage.
2. Exempting Ohioans from requirements of a federal law violates the U.S. Constitution and should be struck down by the Courts.
3. Changes the Ohio legislature has made to health insurance coverage since March 19, 2010 as well as future changes would be invalid. This would include needed changes to Medicaid, workers' compensation, and student health insurance.

FRANKLIN COUNTY BALLOT ISSUES

ISSUE 22: FRANKLIN COUNTY BOARD OF DEVELOPMENTAL DISABILITIES LEVY

Proposed Tax Levy – Replacement

Providing community programs and services to children and adults with mental retardation or other developmental disabilities

3.5 mills, \$0.35 per \$100 valuation, for 6 years, commencing in 2012

League Explanation

Franklin County Board of Developmental Disabilities is the agency mandated by law since 1967 to serve people of all ages who have developmental disabilities and their families. The Board is a direct-service provider, operating schools, workshops, and other programs. In 2010, the Board served 16,000 children and adults. Prior to 2009, the name of the agency was Franklin County Board of Mental Retardation and Developmental Disabilities (MR/DD).

The agency is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) and the Ohio Department of Developmental Disabilities; its school programs meet the standards of the Ohio Department of Education.

Of the agency's total operations in 2008, 81% was funded by two property tax levies, a 3.5 mill continuous levy established in 2008 and a 3.5 mill 10-year levy established in 2001. It is the 2001 levy that is now up for replacement for a six-year period. If the latter is approved, the two levies will make up 77% of the agency's operations. The levy being replaced this year currently collects \$76 million in annual revenue for the agency. If passed, the 3.5 mill replacement levy is projected to collect \$94.5 million in annual revenue.

While Franklin County collects more levy dollars than any other county in the state, the Board also serves more people than any other county and projects 3%-5% growth in the coming years. The county is more limited in its property tax collections than other metro counties because of the amount of tax-exempt property in the county (state government, university, nonprofits).

Currently, the owner of a \$100,000 market value home in Franklin

County pays \$80.07 a year in property taxes for the current levy plus \$107.19 for the continuous/permanent levy, for a total of \$187.26 to support the Board. Passage of a 3.5 mill replacement levy will increase this tax by \$27.12 a year beginning in 2012 (with taxes collected in 2013).

The increase results from state law's requiring the current levy to be collected at a rate lower than 3.5 mills – 2.61 mills, called the effective rate – so that total revenue does not exceed that collected when the levy was passed in 2001.

Because property values are being reassessed by the Franklin County Auditor's Office, voters should keep in mind that the tax will be based on the new assessment.

Arguments Made in Support of Issue 22

- If the levy is not replaced, the agency will lose \$95 million in revenue – almost 40% of its budget.
- Given recent state funding cuts to local social service organizations, including a \$5 million reduction by the Ohio Department of Developmental Disabilities and accelerated phaseout of the Tangible Personal Property Tax, the DD Board relies even more on local property taxes to fulfill its mission. Accelerated phaseout of TPPT means that the Board will lose \$90 million, instead of \$73 million, in revenue over the next seven years.
- The Board has consolidated transportation compounds and implemented other cost-saving measures. At the same time, the Board anticipates 3% to 5% growth in clients.

(See proponent organization: <http://VoteFORIssue22.org/>)

Arguments Made in Opposition to Issue 22

- In challenging economic times, other public and private entities are making do with less, but the replacement levy will result in some taxpayers paying slightly more in taxes.
- Local government social services as a whole have become too reliant on property taxes, which are regressive.

(No opponent organization at the time of publication.)

VOTER IDENTIFICATION

All voters must have identification with them when they vote. Acceptable forms of ID include one of the following:

- Current and valid photo identification (Ohio driver's license, state ID card, government ID) showing your name and address (current address not required for driver's license or state ID card);
- Military identification showing your name (address not required); or
- A copy of a current utility bill, cell phone bill, bank statement, paycheck, government check, or other government document showing your name and current address.

If you do not provide one of these documents at the polling place, you will still be able to vote a provisional ballot. You will then be expected to provide identification to the Board of Elections within the 10 days following Election Day. If you do not have any of the above forms of identification, including a Social Security number, you will still be able to vote a provisional ballot by signing an affirmation statement swearing to your identity under penalty of election falsification and by casting a provisional ballot.
